Bachelor of Engineering in Computer Science, | JSPM, Wagholi

June 2021, CGPA: 8.3

- Volunteer of Gamer's creed event in 2018, Coding ninja event & Poster presentation participant.
 - Passionate about continuous learning, innovation and community engagement.
-

EXPERIENCE

Custom Software Engineering Analyst | Accenture | Bengaluru, Karnataka

Nov 2024 – Present

- Developed Interactive User Interfaces using component-based architecture for flexibility.
- Innovative UI using Gen AI. Interactive prototypes based on complex user prompts
- Code Reviews, troubleshoot & debugging the issues for sustainable web applications.
- Maintained 90% Client retention rate with effective communication & collaboration.
- Enhanced load times by 30%, delivered a reliable product with required features & had 90% client retention rate through effective communication & co-ordination with cross-functional teams.

Systems Engineer | Infosys | Pune, Maharashtra

Mar 2022 – Oct 2024

- Designed & developed SPAs by translating design wireframes into high quality code.
- Protected routes, throttling & debouncing events used to enhance web performance & security.
- API integration & Promise handling using Asynchronous Code.
- Error handling with HOCs like Errorboundry and improve web performance by deferring the loading of components with lazy and suspense.
- Built an exe application using Electron Builder.
- Followed Agile methodologies for seamless delivery of an application
- Improved Security for authenticated users & Increased web performance by 30%.

Trainee | Neosoft Tech. | Pune, Maharashtra

Jul 2021 – Mar 2022

- Well trained in Frontend technologies, worked and collaborated with team in training project.
- Designed Pizza delivery app using MERN stack.
- Testing Rest APIs on Postman.
- Used variety of libraries to design webpages like CSS, Bootstrap & MUI.
- Code Management using GIT version control tool.

PROJECTS

- My portfolio | [Repo](#)

Designed simple but an interactive portfolio in NextJS using React & Tailwind CSS, highlighting my expertise in frontend domain by prioritizing performance, responsiveness, and intuitive navigation.

- Weardo Store | [Repo](#)

Developed a modern, responsive e-commerce site allowing users to manage their shopping carts using MERN stack with stripe, reflecting my skills in building scalable solutions with emphasized seamless design, efficient code structure, and a customer focused approach.

- Admin Dashboard | [Repo](#)

Built a dynamic & responsive admin panel using ReactJS and Bootstrap, enabling real-time data management and visualization, user control & system monitoring with ease of navigation.

- LikhteJao Blog (in development) | [Repo](#)

Crafted a full stack blogging app in NextJS using React, Prisma, & PostgreSQL. Implemented features in responsive and user-friendly interface such that they will be allowed to publish, edit, manage & view the latest blogs.

SKILLS

ReactJS, NextJS, HTML, CSS, JavaScript, TypeScript, ES6, JSX, Tailwind CSS, Bootstrap, JSON, RestAPI, SFCC, Python, SQL, Docker, Git, Jira

TOOLS

VS Code, Figma, Chrome Dev tool, Postman, GitHub, NPM, Gulp/Grunt, Webpack

EXPERTISE

- Page Optimization
- UI Enhancement
- Code Refactoring
- Streamline delivery
